**Good Behaviour of My Friend**

Edith is my good friend. She is ten years old. She has long straight hair, big eyes, a small nose and she is strong. She is a really caring person. Whenever I am sad, she always cheers me up.

Edith always behaves well. During recess, she helps the teacher carry book. All the teachers appreciate her good behaviour. Moreover, Edith is generous. She shares candies with me. I share my snacks with her too. She can cook very well. She always cooks dinner for her family.

I love her so much because she always plays with me. I wish we can study in the same secondary school in the future.
